Start

PROBLEM STATEMENT

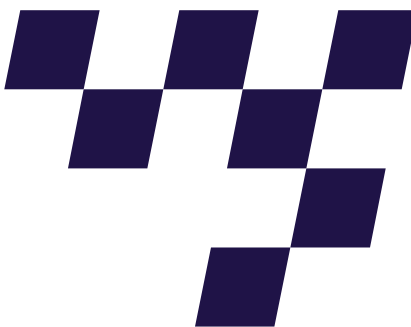

Lack of efficiency and accuracy in the current financial management process. due to Absence of a fully integrated General Ledger (GL) system within Oracle.

Challenges faced include:

- Manual errors.
- Delays in financial reporting.
- Difficulty in maintaining compliance with financial regulations.

Need for a comprehensive GL solution in Oracle to:

- Overcome these issues.
- Enhance overall financial operations.

SCOPE OF WORK

- Setting up, maintaining, and streamlining the GL module in Oracle.
- Configuring accounts.
- Managing journal entries.
- Ensuring compliance with financial standards.
- Providing necessary training and support for users.

TASK

1/Setup & Configuration

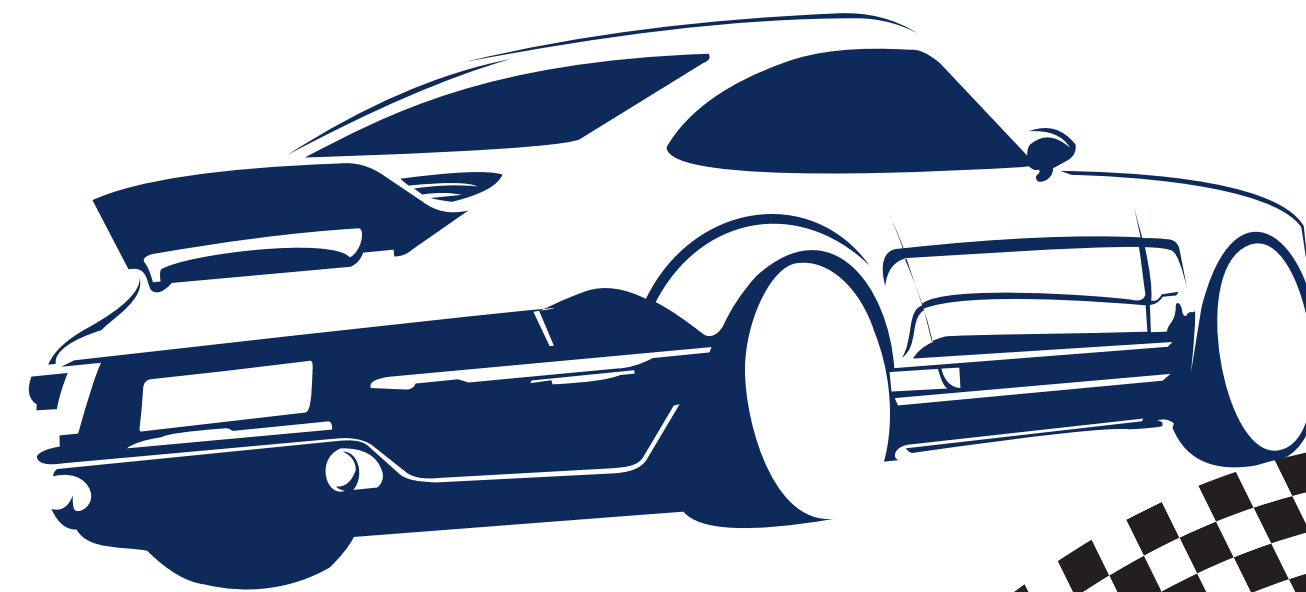

- Define project scope, requirements, and security settings.
- Set up the chart of accounts, accounting calendar, and currency settings.
- Configure Oracle General Ledger and assign user roles.

2/Journal Entries & Processing

- Create different types of journal entries (standard, recurring, adjusting).
- Approve, save, complete, and post journals.
- Copy and reverse journal batches.
- Manage foreign currency transactions and exchange rates.

3/Intercompany & Reporting

- Set up intercompany journal entries and reconciliation rules.
- Perform intercompany transaction reconciliation.
- Generate financial reports (Trial Balance, Profit & Loss, Balance Sheet).
- Test and document system processes.

TEAM MEMBERS AND TASK DISTRIBUTION

YEHIA SALAMA

- user creation , accounting calendar (task1)
- Intercompany ,financial statements (task3)

FAWZY NAGY

- chart of account ,accounting setup , legal entity , ledger set(task1)
- financial statements (task3)

SHAHD SAYED

- defining segments , flexfield Qualifier (task1)
- standard, recurring ,adjusting journals (task2)

MARINA SAMIR

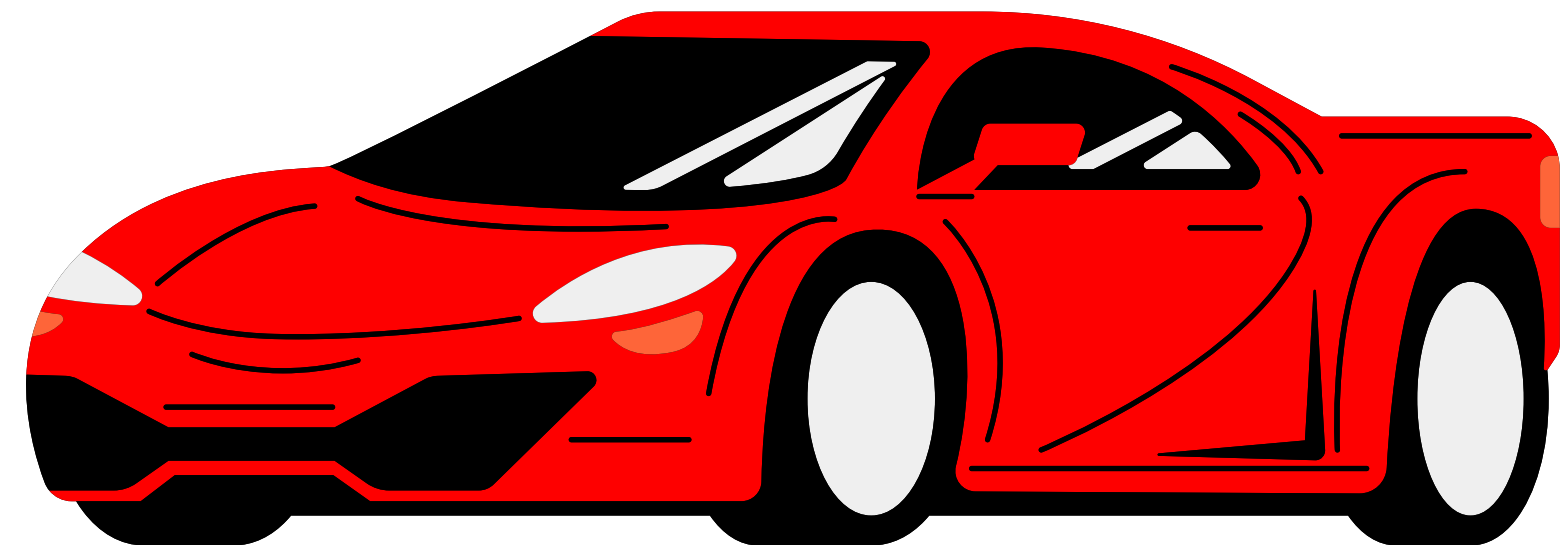

- segment value, currencies (task1)
- defining conversion rate (task2)

GANNAH AYMAN

- currency revaluation (task2)
- Set up intercompany journal entries and reconciliation rules (task3)

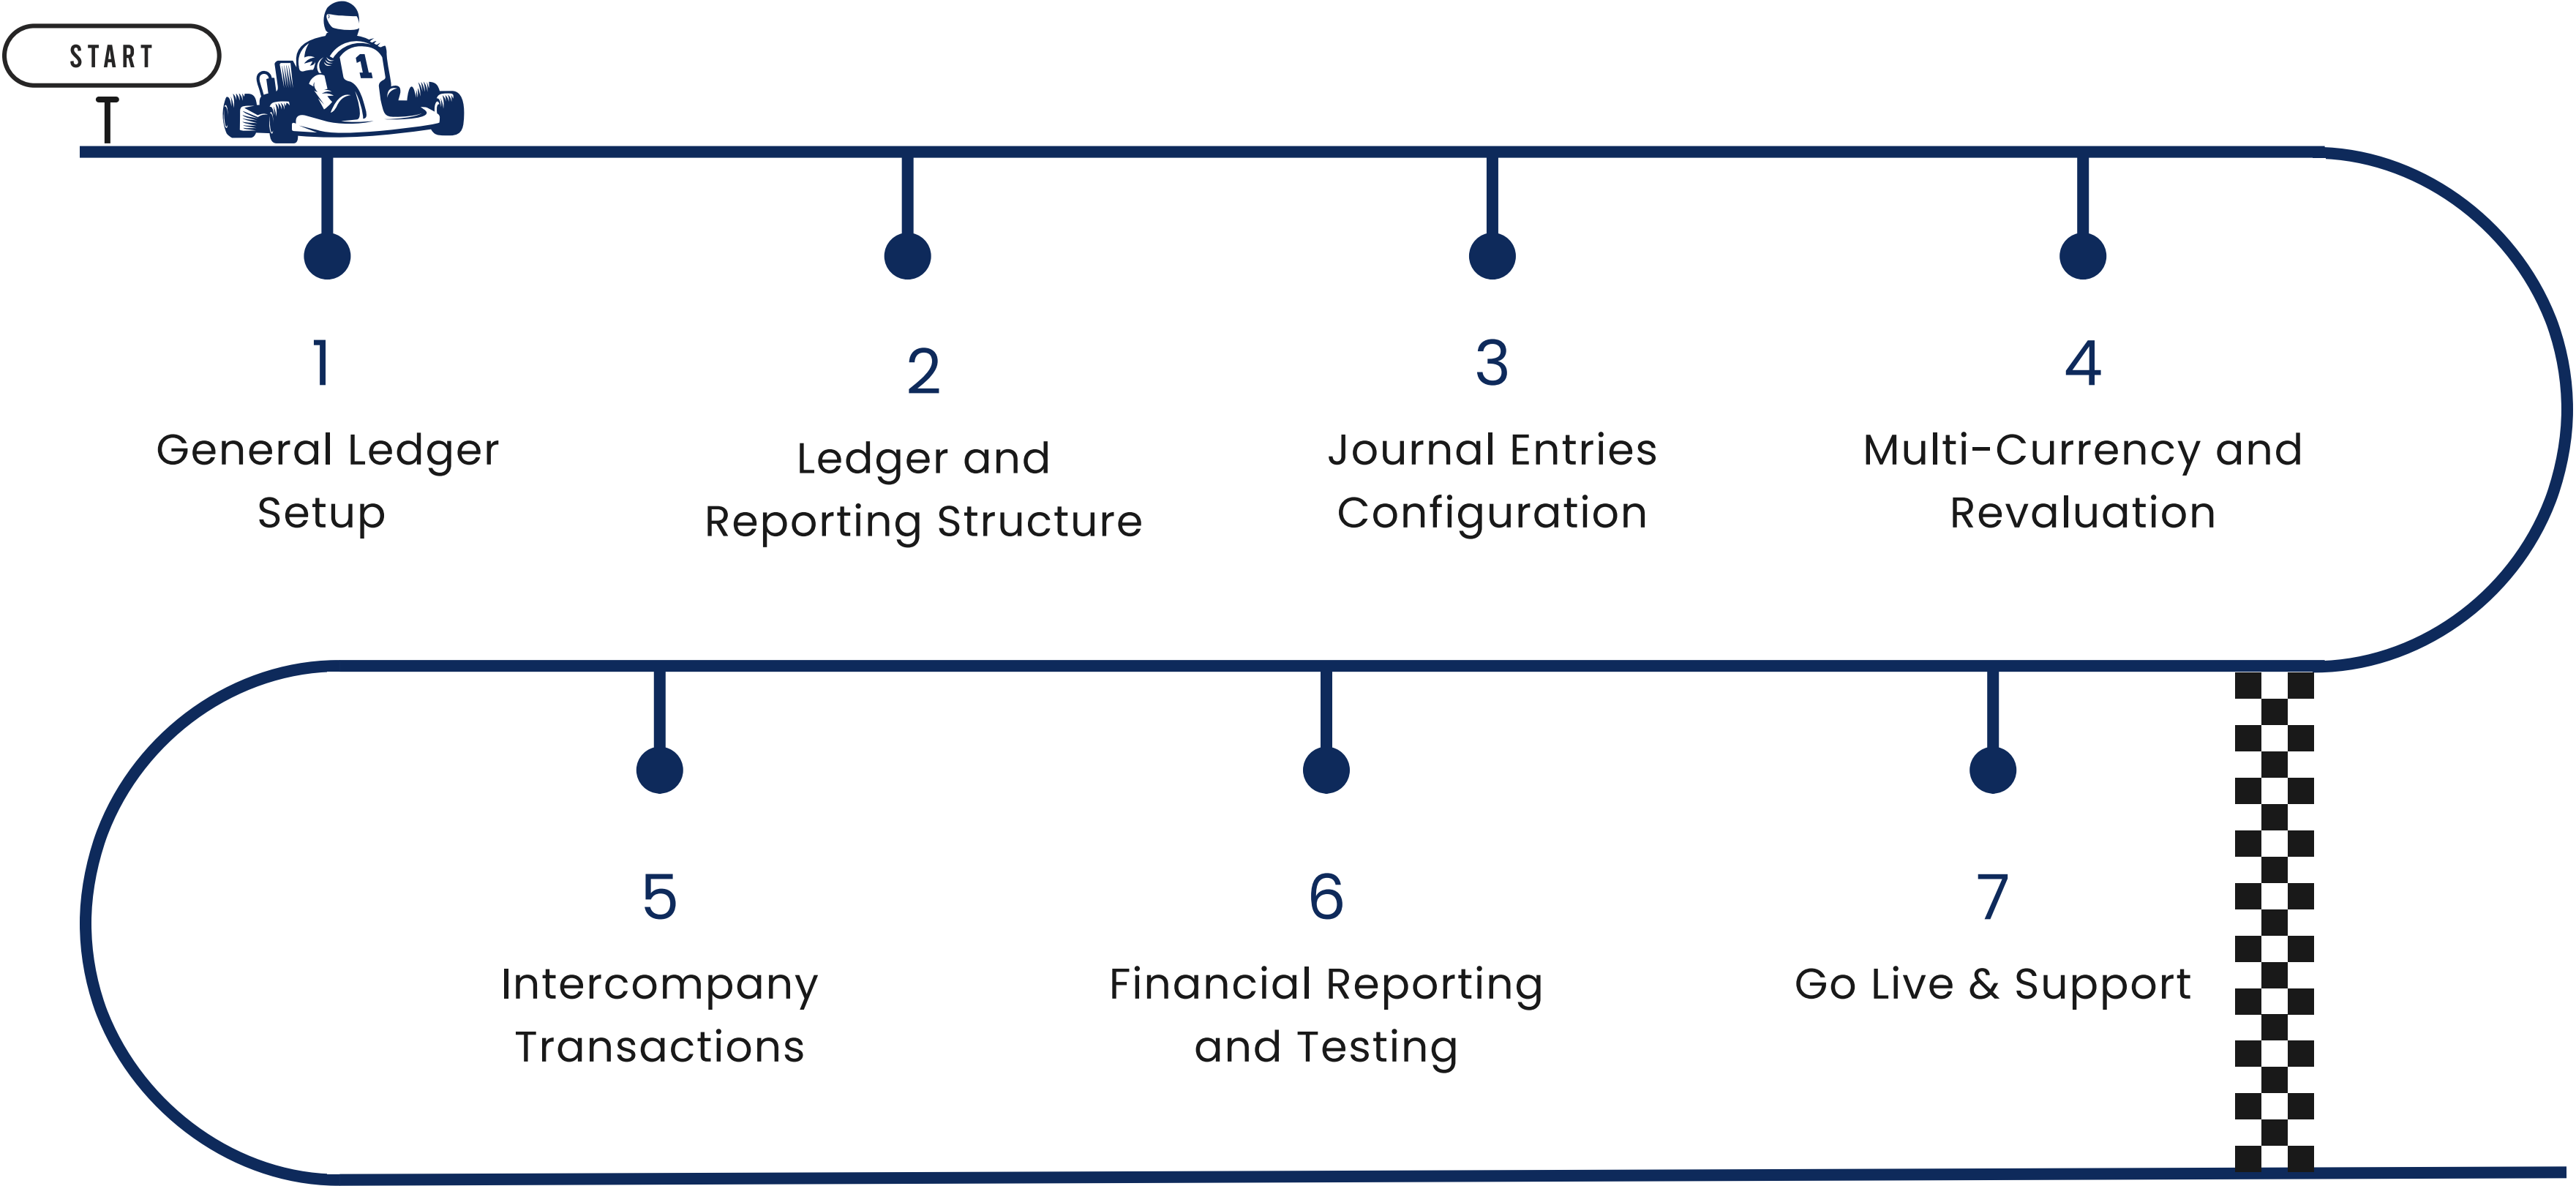

MARIAM KARAM

- prepared the PowerPoint presentation
- security matrix (task1)
- auto copy, reverse ,unbalanced journals (task2)

Assign Access

-
- A stylized, high-contrast black and white illustration of a modern car's front profile. The car is shown from a side-front perspective, facing right. It features a sleek, aerodynamic design with a prominent hood, large headlights, and a wide grille. The wheels are depicted with simple, curved lines, suggesting motion or a low-profile stance. The overall aesthetic is minimalist and graphic, using solid black shapes and white space to define the car's form.

LEDGER SET:

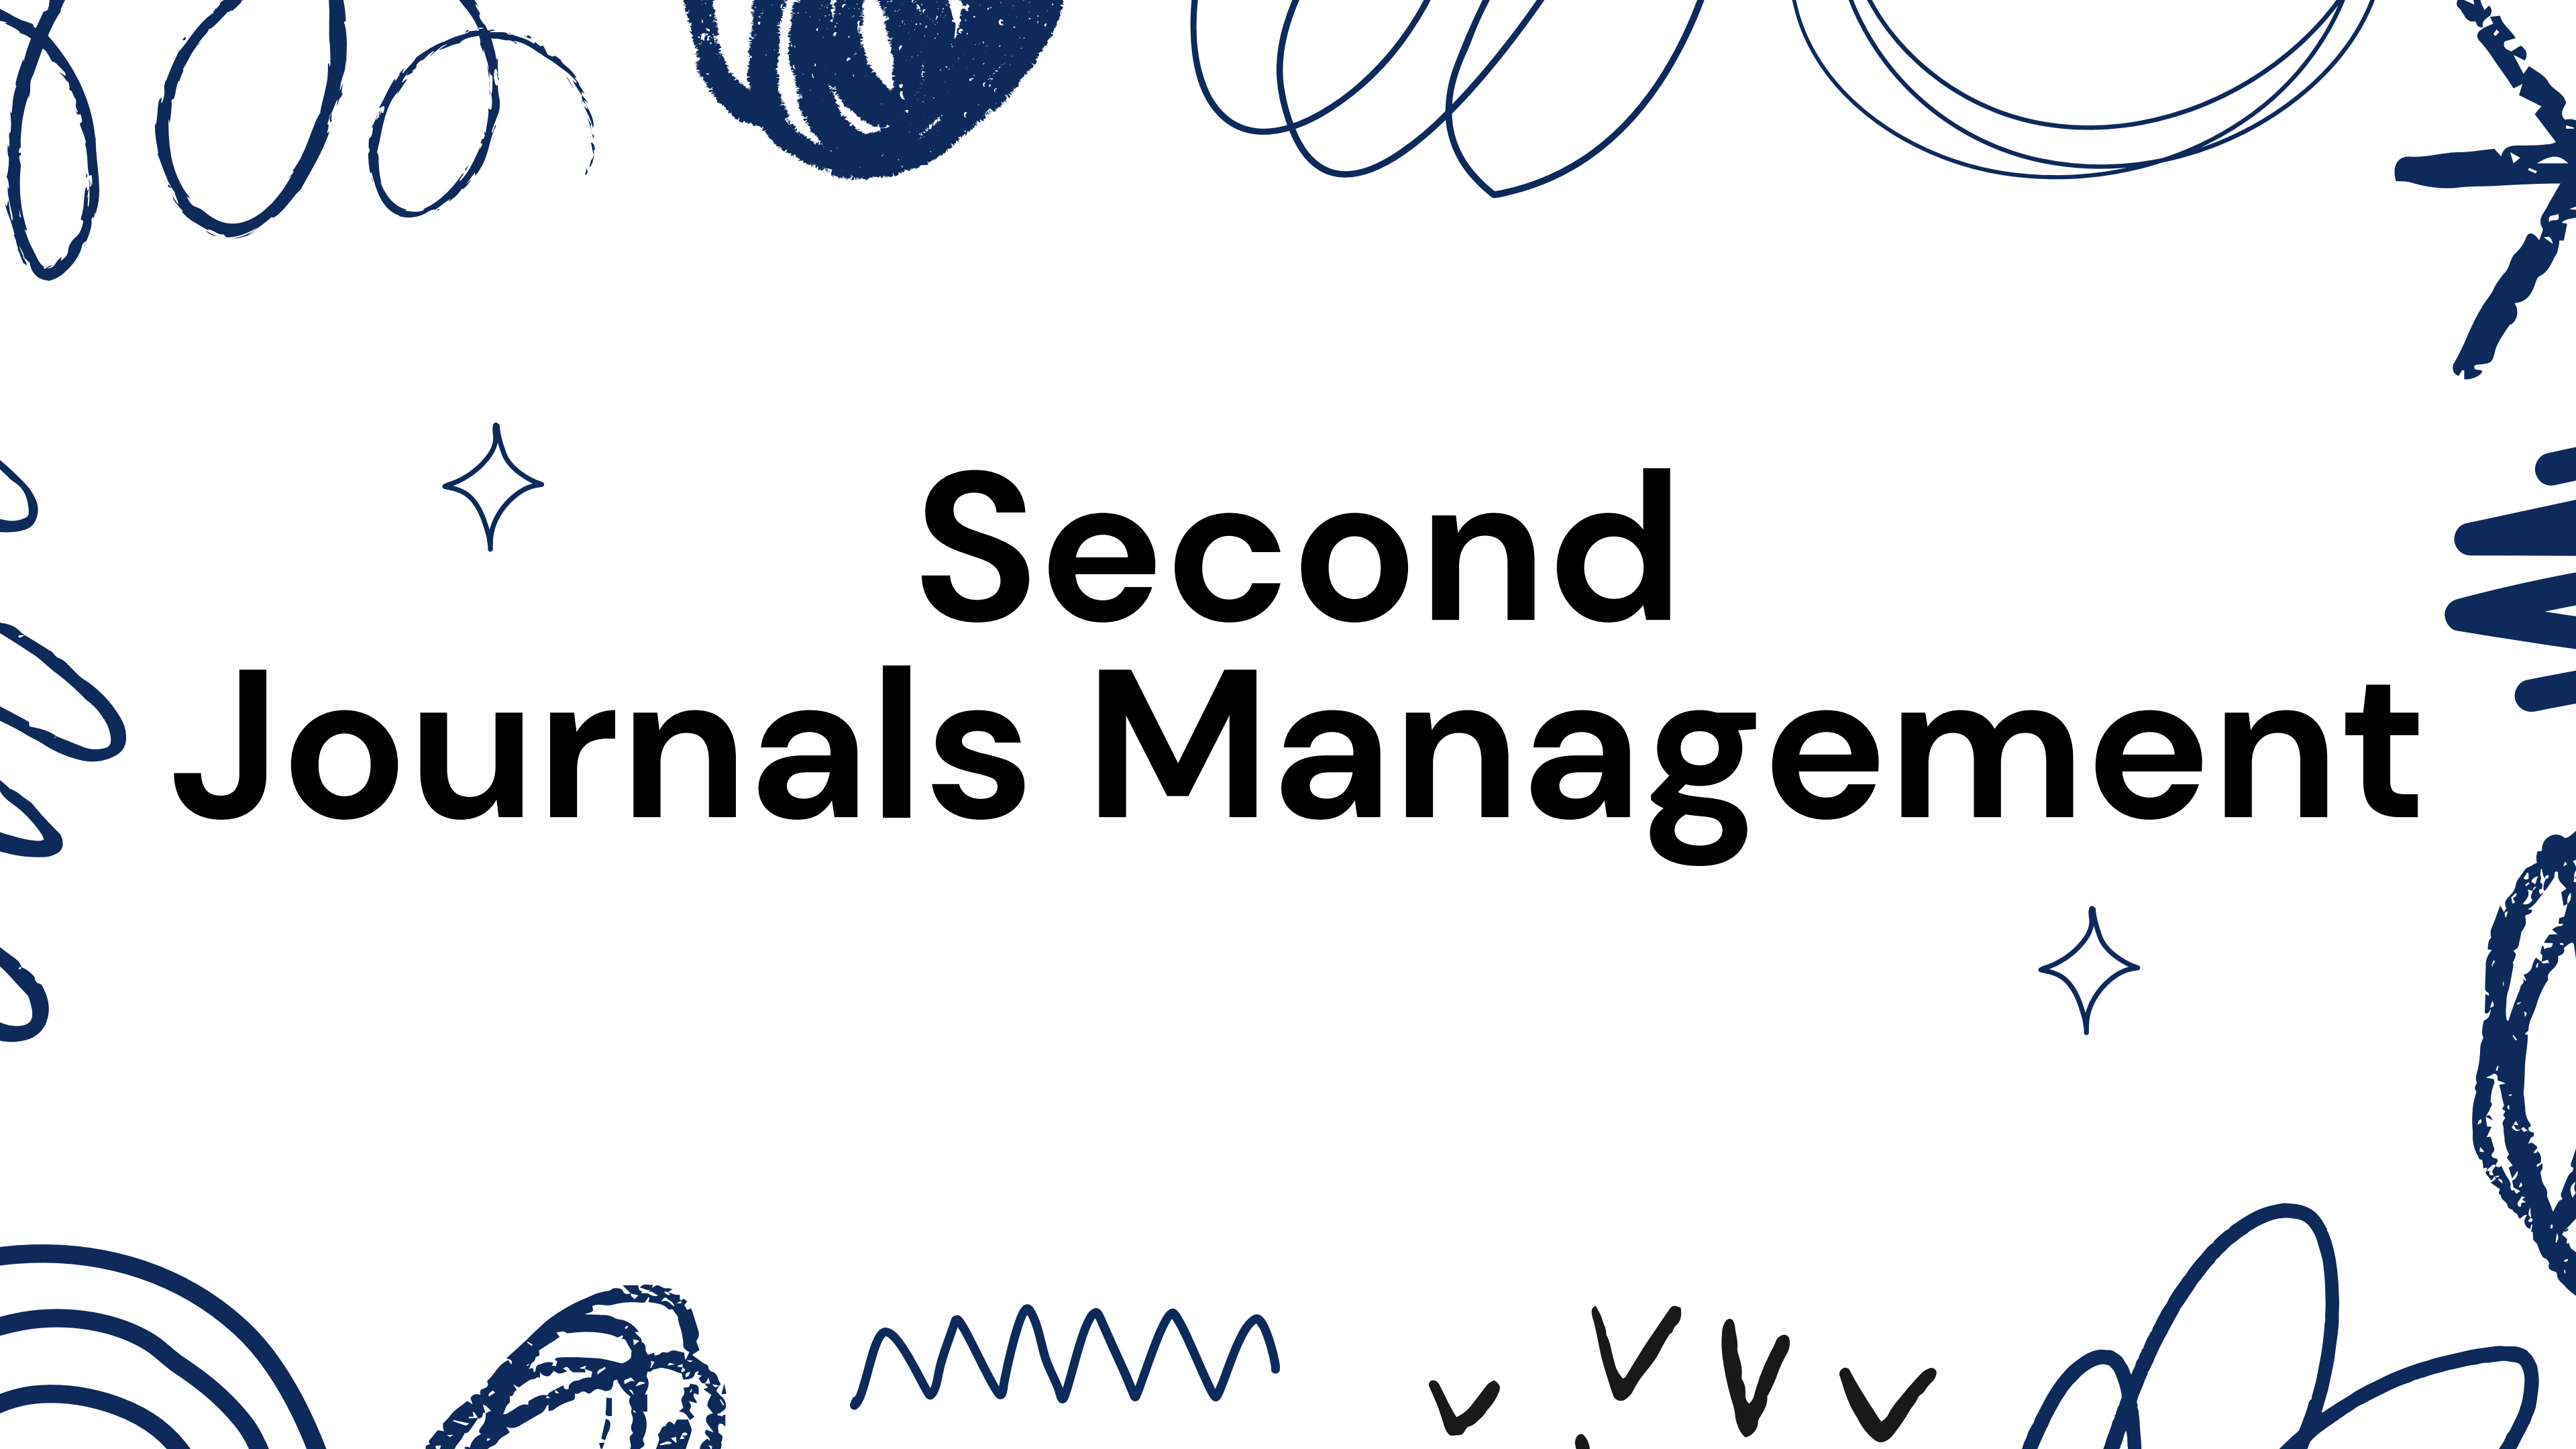

- Setup-> Financials-> Ledger Sets
- Enter the Ledger set name, Chart of Accounts, Calendar .
- Click on list of values of Default Ledger the list of ledger with that combination is dropped down select the Ledger.
- Save your work and close

The screenshot displays the Oracle Navigator - GL Testing application. On the left, the 'Functions' pane is open, showing the navigation tree: Setup:Financials:Ledger Sets. Under 'Define ledger sets', the 'Setup' folder is expanded, and 'Financials' is selected. The 'Ledger Sets' option is highlighted. The main window, titled 'Ledger Set', contains the following fields:

- Ledger Set:** McLaren
- Short Name:** McLaren
- Description:** (empty text box)
- Chart of Accounts:** MCLAREN_1
- Calendar:** McLaren Cal
- Period Type:** McLaren Cal
- Default Ledger:** McLaren

Below these fields is a table with two columns: 'Ledger/Ledger Set' and 'Description'. The table has a header row and several data rows. The first data row shows 'McLaren' in the 'Ledger/Ledger Set' column and an empty 'Description' column. The table is currently empty of data rows.

At the bottom of the window is an 'Open' button.

A sleek, dark blue sports car, possibly a McLaren, shown from a front-three-quarter view. It has a low profile, large wheels, and a convertible top.

Third Intercompany & Reporting

INTERCOMPANY

Intracompany balancing rules are used in Oracle ERP to automatically create balancing lines in journal entries when more than one balancing segment value appears within the same legal entity.

To use this feature, the ledger must have the "Balance Intracompany Journals" option enabled. You need to define balancing rules between different values (e.g., departments or cost centers), assign debit (Due From) and credit (Due To) accounts, and optionally use "All Other" as a default rule. The system can balance entries in either Summary or Detail mode.
